INCLINATION 20° COVER

CE  
All relevant products have been wind tested to EN 13561

**SPACE REQUIREMENT**  
The housing size varies from model to model but is typically 270mm x 270mm. The minimum height requirement is 220mm for the Combi / Compacta and Orly models.

**SHEETS**  
Reinforced PVC or acrylic sheets with a five year warranty are available in a wide selection of plain colours, broad stripes and attractive multi stripes. Flame retardant materials can also be provided.

**SIGN WRITING**  
Our in house facility can brand the awning sheet and / or valence with logos and customised art work.

**AUTOMATIC CONTROLS**  
We offer customised control systems with the most common options being radio control, sun and wind sensors.

**MANUAL OVERRIDE**  
Electrically operated awnings can also have a manual gearbox to operate the awning in the event of power failure.
